SUMMARY OF CONTENT IS TENTATIVE

1. A new building is to be constructed shortly at the VEB Werk fuer Fernmeldewesen WF, Berlin-Oberschoeneweide. This building has been planned for a long time and is to be used for the production of 17-inch and 21-inch picture tubes. The estimated annual output of these tubes is to be between 40,000 and 50,000, which, it is hoped, will meet the requirements for domestic use as well as export to Western Europe.
